Becoming a more effective learner and boosting your productivity will help you earn better grades - but it'll also cut down on your study time. This is a short, meaty book that will guide you through ten steps to achieving those goals:

- Pay better attention in class
- Take more effective notes
- Get more out of your textbooks
- Plan like a general
- Build a better study environment
- Fight entropy and stay organized
- Defeat Procrastination
- Study smarter
- Write better papers
- Make group projects suck less

Whether you're in college or high school, this book will probably help you. But not if you're a raccoon. I want to be very clear about that; if you're a raccoon, please buy a different book. This one will do absolutely nothing for you. How did you even learn to read, anyway?

Study smart not hard, this book is all about that

By Amazon Customer

I have always been a preacher of study smart not hard and this book is all about that. It not only explains the importance of more efficient ways to study but tells you how to be more efficient in a step-by-step manner. As the author states at the beginning of the book; it is not meant to teach you how to turn your life in a day. You give or take, not all of these steps will work for everyone. Try a couple, make them part of your routine, read the book again and try a few more, adapt them to your necessities and situation and get awesome grades.

5 reasons to get this books:

- Smash bros. references
- It teaches you how to get more time to sleep
- Goat jokes!
- Even if you have seen every video or read every post on College Info Geek there are things in here that you won't find there
- it is something that you do by yourself and not with a group because group projects suck!

8 of 8 people found the following review helpful.

Very well researched and thorough. 5 stars.

By Estefanía

This is filled with useful information. I'm a huge Thomas Frank fan, I follow his blog and YouTube channel, and of course, read this book. I really like how all of his content is backed up by research, you can really notice all of the thoroughness and thought he puts into his work. I'm a college student and his methods have helped me a lot, this is a must for any student.

4 of 4 people found the following review helpful.

I love all of Thomas Frank's stuff

By Katrina

I love all of Thomas Frank's stuff. I've followed his blog for a few years, and the culmination of all his wisdom into this little paperback book is fantastic! Even after graduation, I still find the tips in this book useful for the real world... it's chock full of productivity techniques that are essential not only for high school and college, but also for the real world. I can't praise this book (and the rest of Thomas' work) enough. You gotta buy it to believe it!
