And also below, we are providing you the new compilation of ours, the *America 1492: Portrait Of A Continent 500 Years Ago By Manuel Lucena Salmoral*.

From School Library Journal

YA-- This in-depth account of the Indian cultures of the American continent of 1492 will be a timely choice for the coming quincentennial celebration of Columbus's discovery of America. Salmoral presents a well-organized, thoroughly researched description of the Inca, Aztec, and Mayan societies of Latin America, and also of the native cultures of the U. S. Southwest. Catchy, appealing headlines for each topic, a lively style of writing, and thousands of illustrations make this comprehensive work attractive. Birth, funeral customs, sports, medicine, everyday eating customs, music, use of stimulants, and the roles of children, men, and women are all explored and illustrated with photographs of authentic items and drawings taken from museums and libraries around the world, including reproductions from original 16th-century drawings carried back to Spain to report on life in the New World. The scientific, artistic, and architectural achievements of these cultures contrasted with their often rigid social structures make for a fascinating story of how and why cultures are formed, changed, and destroyed. As this book encompasses all of the American Indian cultures, it is an excellent research source for broad cultural studies.

It is very various with the old-fashioned way by gong to guide establishment around your city.

AMERICA 1492: PORTRAIT OF A CONTINENT 500 YEARS AGO BY MANUEL LUCENA SALMORAL PDF

Sequel to "Europe 1492" this book examines in detail the society, art, religion and history of the native American nations from the Inuit tribes of the north, to the Maya, Aztec and Inca cultures of the south. The particular focus of Salmoral's text is on the great Aztec, Inca and Maya civilizations, in which he studies their everyday life, including what they ate, how they farmed, how they raised families, viewed death and the afterlife. He goes on to cover the complex social organizations and class systems of the great cities featuring the two capitals of the Inca and Aztec empires Cuzco and Tenochtitlan. Also discussed is the highly developed cultural life including theatre, music and sport, in addition to their scientific and technological achievements, such as the great sun clock and calendars. Final chapters describe the struggle for power within the great empires, and the first encounter with the Spanish conquistadors that changed their lives forever.
