very good

By anonimo

the book is in great condition and exactly what I needed for my geography class even if it was not the edition required by the school, but is exactly the same.

I do not recommend this as a primary textbook

By Amber

I do not recommend this as a primary textbook. It is fine to supplement but is very thin on text and detail. The graphics are very good and the reading level is accessible however it does not have the depth of content needed for the subject. I am very disappointed with it.
