Mindjammer is a sourcebook for the Starblazer Adventures game set in the strange and distant future of our own planet Earth. It is a cool yet believable science-fiction setting of lost worlds, incredible technologies, and clashing civilizations, drawing upon the far future transhuman space stories by writers like Cordwainer Smith, Iain M. Banks, Dan Simmons, and Peter F. Hamilton. The Mindjammer setting introduces the New Commonality, the nascent interstellar state attempting to dominate the Rediscovery Era, a time when ultra-advanced technologies rub shoulders with lost and regressed worlds. Mindjammer contains exotic races and new careers, sentient starship characters, far future technologies including the interstellar 'Mindscape' and technological psionics, new skills and stunts, new starships, rules for interstellar cultures and cultural conflict, starmaps, worlds and a detailed background of a huge Star Empire and its allies and foes. There's also a complete campaign of four linked scenarios, 'The Black Zone', including spectacular Starblazer action with combat walkers, mass battles, and terrifying alien technologies!

A great purchase for any fan of Starblazer Adventures

By Daniel Swensen

Mindjammer is half campaign setting, half linked scenarios that make up a campaign. Mindjammer's setting has a heavy transhumanist flavor that is much different from the space-opera roots of Starblazer Adventures. There are no computers, but instead a shared "mindspace" from which beings can draw knowledge.

Even if you aren't into the transhumanist elements, there is plenty to recommend Mindjammer. New equipment, new skills, and a nicely detailed setting that's ready for use. The only criticism I have is that I would have rather seen the adventures packaged into a different volume -- I'm just not a big fan of sourcebooks sharing space with scenarios.

If you're a fan of Starblazer Adventures, Mindjammer is an excellent companion volume.

Starblazers

By Ted E. Chase II

Have not used book yet. Hoping it would be like Starfrontiers was. This continues the other side of starblazers side.
