By sarah

it is nicely written, however the content is not providing much more than SAP's marketing slides. Maybe a nice overview, but not much more. No information about implementing or migration of value.

Target group might be management who just want the 10,000 feet overview. But not more details or interesting insight.

Not really worth the money...

Five Stars

By Etoe Santos

It is a valuable overview. Very well written. Interesting as a first reading. Not deep tech.
