Some Spoilers

Let me start by saying that I really enjoyed this book. The pace was nice and it didn't leave any plot holes or gaps that left me scratching my head.

This story takes place in London 1814 during the end of Napoleon's reign. We meet Abigail the Countess of Rathbourne who has been searching for her husband for 2 years after he mysteriously disappears a couple of weeks after their wedding. We meet her on a dark road after midnight while she is returning home after a failed rendezvous with a stranger who claims to have information pertaining to her husband. They happen upon a stranger who is unconscious and bleeding. They get him in her carriage and take him to her home where they realize that he suffers from amnesia. After a few days he just disappears without so much as a "By your leave". From there the story really takes off and we meet a whole slew of people who are either friend or foe. Abigail is lead on journey of spies and allegiance as she delves deeper into the mystery of who her husband really was. She has to go back into society and deal with the "TON", all of who scorned her and spread horrible gossip about why her husband left.

I was shocked how this story turned out but it was worth the read and I would definitely read more by this

One of the best of Regency, INMO, top 10

By Austintatious

A fast moving Regency love story with all sorts of intrigue; French and English, many bad people, many good people and the Ton is as obnoxious as ever. Easy read, the clothing descriptions were integral to the story, (nice writing Ms. Salter, it is one of my biggest peeves- stopping the story to have two pages of dress descriptions! You have done one of the best integration's of story and the dress descriptions I have read in many a year!) I was never frustrated nor bored.

I loved the good people and was happy to see such delicious ends for the villains!

I hope to find more of your work, but I couldn't , so I urge you to continue using your talent, as I know you will continue to have devoted readers. And I count myself one of them.
