Again a richly-illustrated, well researched book by Konemann

By Sik Yan Choi

A find of gold! Not mentioned the well-researched writings, the illustrations, presented in big size, printed with high quality, definitely are the merits for this coffee-table sized book to serve as a pictorial reference for art of the Renaissance, especially, for the sculpture part. This high-quality volume is a bargain. It should be one of the collection on your book shelf if you find interest in classic works of art.

Excellent Art Book

By Kris

We just got back from a trip to Florence and Rome - I wanted a book of the great art and architecture we saw while we were visiting. This book was perfect. The pictures are beautiful. I also bought Michaelangelo: the complete sculpture, painting, architecture. Completely happy with these selections.
