THE GENIUS OF ISLAM: HOW MUSLIMS MADE THE MODERN WORLD BY BRYN BARNARD PDF

The Middle Ages were a period of tremendous cultural and scientific advancement in the Islamic Empire—ideas and inventions that shaped our world.

Did you know that:

- The numbers you use every day (Arabic numerals!) are a Muslim invention?
- The marching band you hear at football games has its roots in the Middle East?
- You are drinking orange juice at breakfast today thanks to Islamic farming innovations?
- The modern city's skyline was made possible by Islamic architecture?

The Muslim world has often been a bridge between East and West, but many of Islam's crucial innovations are hidden within the folds of history. In this important book, Bryn Barnard uses short, engaging text and gorgeous full-color artwork to bring Islam's contributions gloriously to life. Chockful of information and pictures, and eminently browsable, *The Genius of Islam* is the definitive guide to a fascinating topic.

Eye Opener

By Paul C.

Many "Really?!" moments packed in this slender (just under 40 oversized pages) but informative book.

From optics to bananas, bowing stringed instruments to using notation for zero, Islamic civilization got there first, it seems.

Barnard's orientation is historical and scientific -- religious issues aren't his subject -- so it will be interesting

to see if this book is nevertheless swept up into the politics of our clash-of-civilizations moment merely for its title.

Handsome painted illustrations throughout. It's well written, with many eye-opening revelations.

Excellent intro to history of Islamic civilization

By Amazon Customer

If you want a concise, very well-researched intro into the history of Islamic civilization and culture, this is a great choice. Nice illustrations, just the right amount of text, and more references in the back. It's a great anti-dote to the kind of thinking that is on display in the review written by another Amazon reviewer. Barnard shows where the influences from other civilizations came from, and where the originality from Islamic civilization made its mark. Highly recommended.

A Very good book for young people!

By Jason B.

This is a very well written book about some of the advancements the world has seen that were the direct result of invention or inspiration of Muslims. A good book for you people which will give a larger view of Islam.
