## Review

“Will boost the confidence of even the most black-thumbed houseplant owner. Martin’s can-do enthusiasm is infectious, her creativity inspiring.” —Booklist

“An imaginative guide to bringing the delights of the garden indoors.” —Publishers Weekly

“All indoor plant hobbyists in every geographic area will enjoy and learn from this book. Its fresh approach deserves a thumbs-up.” —Library Journal

“[Martin] has a witty, creative voice that warms her new book.” —Traditional Home

“Tovah Martin’s newest book is no dry encyclopedic volume: Her personal, engaging writing style is as entertaining as it is informative.” —Country Gardens

“As the air gets crisper outside, it’s time to rethink what plants can do to enliven our interior spaces. Tips on how to care for ordinary and not-so-ordinary species are revealed, so non-green-thumbers need not fear.” —Design New England

“This book engenders so much enthusiasm for indoor flora that you can find yourself outdoors with a shovel in your hand robbing your own garden of plants to bring inside.” —Gardenista

“This isn’t just another book on houseplants; it’s an invitation to adventure.” —Horticulture

“Martin writes in a captivatingly personal way...It’s Martin’s exuberance and deep knowledge that’ll keep you reading.” —Seattle Times

“Martin’s book makes one look very differently at the whole houseplant phenomenon. It isn’t so much a

practical guide...as a challenge to think outside the box when trying to bring the outside inside.” —Daily Hampshire Gazette

“As the air gets crisper outside, it’s time to rethink what plants can do to enliven our interior spaces. Tips on how to care for ordinary and not-so-ordinary species are revealed, so non-green thumbs need not fear...Refreshing in the world of garden books.” —Philadelphia Inquire

“A good book for plant geeks and anyone tired of the same old peace lilies.” —Harrisburg Patriot-News

“A smart, stylish book on indoor gardening.” —Pacific Horticulture

#### From the Back Cover

This isn’t your grandmother’s houseplant book. Renowned expert Tovah Martin thinks it’s time we dusted off houseplants, updated their image, and discovered just how exciting, rewarding, current, and crucial plants can be in our experience of home. Picture brilliant spring bulbs by your bed, lush perennials brought in from the garden, quirky succulents in the kitchen, even flowering vines and small trees growing beside your easy chair. You’ll learn about all these plants and more, including placement, watering, feeding, grooming, pruning, and troubleshooting. Comprehensive, up-to-the-minute, and engagingly personal, *The Unexpected Houseplant* is for beginners, practiced green thumbs, and anyone who wants to infuse a bit of green into their décor. So join the indoor-gardening revolution—where plants and people intertwine and live happily ever after.

#### About the Author

Tovah Martin emerged from twenty-five years working at Logee’s Greenhouses with a serious houseplant addiction. Author of the classics *The Unexpected Houseplant*, *The New Terrarium*, and *Tasha Tudor’s Garden*, Tovah has written more than a dozen gardening books. She served as garden editor for *Victoria* magazine throughout its lifetime. In addition, her articles appear in a broad range of magazines and periodicals, including *Country Gardens*, *Garden Design*, *Coastal Home*, *Martha Stewart Living*, *House Beautiful*, *Connecticut* magazine, *Yankee*, *The Litchfield County Times*, and *The Daily Telegraph*. For two years she served as segment producer and frequent guest on the PBS television series *Cultivating Life*, and she is a repeat guest on the CBS *Sunday Early Show*. Tovah teaches houseplant cultivation to Master Gardeners and lectures extensively throughout the country. An accredited Organic Land Care Professional through NOFA, Tovah gardens fanatically and organically both indoors and throughout her seven-acre Connecticut garden. In addition to bestowing their Sarah Chapman Francis Medal for outstanding literary achievement on Tovah in 2008, The Garden Club of America and the Litchfield Garden Club awarded her honorary memberships. *People, Places, Plants* magazine called her “one of the top 10 most influential educators in gardening” and the Massachusetts Horticultural Society honored her with its Gold Medal “for extraordinary service to horticulture, especially greenhouses and indoor plants.” Tovah provides advice and troubleshooting via her blog at [plantwise.com](http://plantwise.com).

# **THE UNEXPECTED HOUSEPLANT: 220 EXTRAORDINARY CHOICES FOR EVERY SPOT IN YOUR HOME BY TOVAH MARTIN PDF**

It's time for plant lovers to dust off their houseplants, update their image, and discover just how exciting, trendy, and crucial plants can be in the home.

The Unexpected Houseplant, by renowned plant authority Tovah Martin, isn't your typical, old-fashioned, dowdy houseplant book. Martin's approach is revolutionary—picture brilliant spring bulbs by the bed, lush perennials brought in from the garden, quirky succulents in the kitchen, even flowering vines and small trees growing beside an easy chair. Martin brings an evangelist's zeal to the task of convincing homeowners that indoor plants aren't just a luxury—they're a necessity. In addition to design flair, houseplants clean indoor air, which can be up to ten times more polluted. Along with loads of visual inspiration, readers will learn how to make unusual selections, where to best position plants in the home, and valuable tips on watering, feeding, grooming, pruning, and troubleshooting, season by season.

Best Houseplant book ever!!!

By Nemrac

I have a huge collection of houseplants and houseplant books, and I have to say of all my books on houseplants, this one is my absolute favorite book for houseplants. Most houseplant books just go into minor details about the plant and really give no useful information. I believe most people that write houseplant books don't even hardly do any research on houseplants and I have to say some books seem to be written by people who have never even owned a houseplant...But the author of 'The Unexpected Houseplant' went above and beyond writing a book on houseplants....first of all, she doesn't write about the basic, boring houseplants like spider plants, peace lilies, the everyday houseplant that anyone can grow, she writes about the unusual and more rare houseplants, the kind that anyone who collects houseplants really like and collect themselves. And when I saw the sections on the Pregnant Onion and *Bowiea volubilis*, I got very excited...hardly anyone puts those plants in houseplant books. And the author doesn't just write a quick section on plant needs like watering and light requirements (which she does at the end) but writes a good few pages on each plant about her personal experience with the plants.

If You are a real collector of houseplants and need a book on the more unusual plants, then this book is a must have. Actually I would even recommend this book to people who just have a few houseplants too, this book will make anyone want to go out and hunt the plants in this book down.

This author wrote this book in the four seasons, cause when you think about it, our houseplants and houseplant needs do change with the seasons. She even has a cat that loves to get into her houseplants, which I think is cute and a lot of us can relate, most of us have that pet that loves to get into our plants.

I think this is the most perfect houseplant book, with ALOT of great information, and is the kind of book that you can reread many times over and never get bored and learn something new each time. She has beautiful pictures of her own houseplants. I could go on forever on this book, but if there ever was a perfect book on houseplants, this one is it and belongs in anyone's collection, and would make a perfect gift for someone that's into houseplants. You will not be disappointed!!

Houseplants 101

By slc4242

Good resource book. Especially if you are new to gardening and could use some help. I would have liked to had it available to me when I started.

Not impressed!

By Candise Learn

The author is trying to impress her audience with many words trying to show her supposedly brilliance which actually comes off as wordy writing. If the author had ever read E B Whites writing style suggestion she would know that.

As for the impressive latin words of the houseplants does nothing to inform her audience of the actual name of the plants. Also very little instruction is given in taking care of the plants, propagating the plants, or appropriate temperatures of the plants. Thus my rating.
