Very Positive for all Martial Arts

By Rebecca Bergfield

I purchased this book even though I am studying TaeKwon Do and not Karate. While the stories of the individuals featured were interesting I really learned a lot buy the lessons each chapter taught. Richard Kim does a terrific job of teaching the reader lessons, such as why it is important not to become a specialist in one area or why a student of Martial Arts should not study for glory but for personal satisfaction, as well as telling a great story. The book is short and to-the-point but also entertaining. I strongly encourage others to read this and will suggest it to the other students where I study.

Good Insight, not enough history

By A Customer

This is a great book if you want to hear the tales of the founders of karate. If you are looking to this book however to be a fact based history book then this is not for you.
