Baker](#), learn more right here.

VISIONS BEYOND THE VEIL BY H. A. BAKER PDF

Visions had by orphaned beggar boys in China during a revival in the early 20th century. The Bakers started Adullam Rescue Mission for street children in Yunnan Province, China. The children in the home, mostly boys aged from six to eighteen, had a revival during which they had visions of heaven, Paradise, angels, and even hell. The children also had visions of the Antichrist, the Rapture, Resurrection, and Day of Judgment. H. A. Baker worked for years with little fruit and he almost gave up, until the Holy Spirit came with power, but he never put the spiritual above the Word and searched the Scriptures to make sure what was happening agreed with the Bible. This is reflected in his books as he includes Scripture references in most chapters.

Further proof for doubters, critics and unbelievers.

By Intrepid

An excellent documentary of supernatural revelations manifesting through children who have next to no knowledge of these things in scripture; yet their experiences verify God's Word. Many theologians won't even admit to this; to their regret for sure. More importantly here is valid empirical evidence for unbelievers, doubters and other outsiders concerning God's will, plans and future events that will occur soon. In addition, it is further proof of the parallel universe (albeit concentric) that we live in, through the experience of children (who could NOT make any of this up). Rev. John H.

Come Back to it Again and Again.

By Barry Holcomb

I read this book many years ago, and I keep coming back to it again and again. I can never seem to keep a copy - I tell someone about it, and give my copy away time and again. The delightful accounts of the miraculous, of children in a Christian orphanage seeing visions and recounting details they could not have

known in the natural are dramatic evidence of heaven and the life hereafter.

Not as recommended as other books.

By Judith Murat

This book mostly about God using children in most unusual conditions and amazing results. Very simple and easy to understand. Not as descriptive as other heaven books.
